

Put your fingers on the frets just before the fret line or it will buzz.

Put the tip of your finger on the fret, and squeeze your hand, with the finger you are using, and your thumb on the back.

When you strum down without a pick, use your second and third finger nails, when you strum upwards, use your thumb nail.

Make sure you twist your wrist, rather than moving your whole arm.

Play this on your D string: Count the numbers in between hitting the frets. Use the same fingers as the fret numbers: 0, 2, 3, 2.

Play: 0 (2 3 4) 2 (2 3 4) 3 (2 3 4) 2 (2 3 4)

Count: 1 2 3 4

3 2 0
